ANALYSIS REPORT
OF
FACULTY FEEDBACK ON CURRICULUM

SESSION 2021-22
(Even Semester)

ANALYSIS REPORT

Introduction

Feedback is an essential element of the learning process. The college collects the feedback on various curriculum aspects and courses from different stakeholders such as the students, alumni, Faculty, Employers and Parents through online or offline. The feedback collected from the faculty has been analysed and taken to the consideration for the development of curriculum, teaching learning process and environment.

Faculty is an important stakeholder of education systems of any education institution. Although our college is affiliated to the Punjabi University, Patiala and follows the prescribed curriculum. Still the college collects feedback on curriculum from the faculty regarding suggestions/ update/ innovations for the improvement of the college education system.

To conduct feedback on curriculum from various stakeholders, the college designated a team. The team prepared a feedback questionnaire on curriculum using Google form which was circulated online to all faculty members using college website, college LMS and WhatsApp groups to provide feedback on curriculum. We have received more than approx 100 responses from the faculty on the curriculum.
