ASBASJSM College has a tradition of academic excellence and is providing quality education to the students of the region since its inception. Institution also provides abundant opportunities to students to improve their skills for handling various academic and co-curricular activities. The college has been awarded “ONE DISTRICT ONE GREEN CHAMPION AWARD” by MGNCRE, DHE, Govt. of India.

VISION

To develop as a sustainable, affordable, excellent and role model institute of global benchmark to provide quality education, training, research, innovation and to include core values and entrepreneurship to rural students.

ABOUT THE SEMINAR

As the pandemic-hit world deliberates upon the ways to reinvent the skilled youth force, business leaders are rethinking how to prepare their workforces from predicting required future skills to keep pace with the fast-moving technological climate. The current situation presents India with a moment to establish itself as the Skill and Knowledge Destination of the world. Prime Minister Narendra Modi's call for expediting the skilling, re-skilling and up-skilling of the workforce to meet the huge demand is a welcome step. Declaring skill development of the new generation a national need, he has called for skill orientation with the idea of “Atamnirbhar Bharat” i.e., economically self-reliant India. To turn this vision into a reality many reforms have been initiated like Capacity Building Schemes, PMKVY 2.0 & 3.0, Craftsmen Training Scheme, Rozgar Mela & National Education Policy 2020 for schools and higher education etc. The National Education Policy envisages beginning with vocational exposure in school and HEI's and integrating vocational education so that 50 per cent of our children obtain at least one vocational skill. The Directorate General of Training (DGT), India's apex organization for development and co-ordination of the long-term vocational training across the country is working tirelessly in this direction by setting up huge number of institutes to create, to fund and to enable the youth to be self-reliant. The pandemic years have made us face the harsh reality of unemployment like never before. People lost their businesses, jobs and opportunities and were lost into the abyss of mental trauma and stress. This seminar is an intentional step to discuss the concept of Reimagining Skill India, to remap the roads of policies & initiatives, revisit the past to open new avenues, rethink the needs of present times and to reframe our policies & purposes accordingly.

This National seminar will focus on the following sub-themes:

- ① Strategic leadership & Digital transformation.
- ② Atamnirbhar Bharat.
- ③ Impact of COVID-19 on skill development among individuals.
- ④ Rise of organic products & entrepreneurship.
- ⑤ Corporate Social Responsibility towards skill development.
- ⑥ Gender equality in skill development.
- ⑦ Role of educational institutions in promoting EDPs.
- ⑧ Women Empowerment/Entrepreneurship.
- ⑨ Role of funding agencies, self-help groups, media, celebrities, movies, arts, literature etc. in promoting entrepreneurial skills.
- ⑩ The above said themes are not exhaustive. The participant can choose any other theme or area related to the title.

CALL FOR PAPERS

We encourage teachers, researchers, students, educational administrators and other delegates to submit original articles that are pertinent to the theme and sub-themes under the following requirements:

- Less than 250 words should be used for the abstract.
